Research Interests: *Development Economics, Political Economy, International Economics, Labor Economics*

EDUCATION

University of Macau

Bachelor of Social Sciences in Government and Public Administration

Macau SAR, China

Aug 2023–present

- Cumulative GPA: 3.72/4 (Top 5%); WAM: 93/100 (Estimated)
- Awards and Honors: Golden Lotus Full Scholarship for Admission Examination; Dean's Honor List (2023–2026)
- Quantitative and Empirical Training: Social Sciences Research Methods (A), Quantitative Reasoning for Social Sciences (A), Statistics and Data Analysis (A), Game Theory (A), Political Economy and Formal Theory (A), Data Science and R Programming (A-), Macroeconomic Policy (A-), etc.
- Core Substantive Courses: Understanding Government (A), Political Theory (A), Asian Politics (A), European Union Politics (A), World Governance (A), International Political Economy (A), The Rise of Asia (A), Seminar on Public Administration in China (A), Comparative Politics (A-), Macroeconomic Policy (A-), etc.

National University of Singapore

Summer School on Singapore, Asia and the Global Economy

Kent Ridge, Singapore

Jun 2026–Jul 2026

- Key Components: International Political Economy, Regional Integration, Development Strategies, Trade and Financial Connectivity, Technological Change and Green Transition, etc.

London School of Economics and Political Science

Summer School on Statistics for Economics and Econometrics

London, United Kingdom

Jun 2024–Jul 2024

- Key Components: Statistical Data Analysis, Probability and Distribution Theory, Regression Modeling, Sampling and Statistical Inference, Data Visualization with R, etc.

SELECTED WORKS IN PROGRESS

Tracking Bill Changes in China's Two-phase Lawmaking Process

with Jiying Jiang

- Construct and maintain an original legislative dataset covering all 486 laws publicly released during the 11th–14th National People's Congress (NPC) and 381 public consultation records; systematically collect and digitize all draft versions and final enacted texts of 98 laws adopted through a two-phase lawmaking process, matching and tracking article- and paragraph-level revisions across drafts.

RESEARCH EXPERIENCE

Legislative Politics and Computational Social Science

Research Assistant, Department of Government and Public Administration, University of Macau

Supervisor: Prof. Jiying Jiang

Aug 2024–present

- Collect large-scale legislative and legal text data through programmatic web scraping and batch retrieval from Wikisource, PKU Law, official websites, and government documents, contributing to the construction of an original legal text dataset from scratch.
- Process large volumes of scanned PDFs, image-based files, and other non-machine-readable source materials; used R scripts to batch-convert documents into machine-readable plain text, normalize formatting and document structure, and correct OCR-related errors to ensure textual accuracy and analytical usability.
- Develop and refine AI-assisted workflows for automated OCR post-processing, text cleaning, classification, and structuring of complex legislative documents, improving the efficiency, stability, and accuracy of large-scale legal text data processing.
- Assist in large-scale legal text analysis using R, including cross-document and clause-level matching based on cosine similarity and Jaro–Winkler string distance; conduct descriptive statistics, regression analysis, data summarization, and visualization with tidyverse packages such as dplyr and ggplot2.

Research and Reading Group on Political Economy and Empirical Methods

Hong Kong Metropolitan University & Online

Chair: Prof. Tao Li

Aug 2025–present

- Composed of students and researchers in political science, economics, and public administration from the University of Macau, the University of Hong Kong, Peking University, the University of Cambridge, ETH Zürich, the University of Nebraska–Lincoln, and Nanyang Technological University.
- Engage in weekly research meetings focused on cutting-edge papers in political science, economics, and research methodologies, while presenting literature, discussing research ideas, and regularly reporting progress on individual research papers.

Legislative Transparency, Public Consultation, and Bill Revisions

Summer Researcher, Department of Government and Public Administration, University of Macau

Principal Investigator: Prof. Jiying Jiang

May 2025–Aug 2025

- Participated in an empirical study of legislative transparency in China; collected and cleaned large-scale textual data using code-based web-scraping tools, processed 234 public consultation records, and used R to automate article-level matching, filtering, and descriptive statistics for draft laws across consultation stages for 89 laws.

Collaborative Governance and Social Network Analysis

Research Assistant, Department of Government and Public Administration, University of Macau

Supervisor: Prof. Shuwen Zhang

Starting Fall 2026

- Will be responsible for collecting and cleaning administrative data, and using Social Network Analysis (SNA) method to examine collaborative governance within the region.

LEADERSHIP & ACADEMIC SERVICE

Youth Association of International Affairs

Head of Academics

Core Member of Academic Department

University of Macau

Jun 2025–present

Sep 2023–present

- Organize academic seminars (including Jean Monnet Seminars), and activities related to international relations.
- Host and co-host two annual flagship events: the Macau International Knowledge Contest and the Model EU Summit (typically co-organized with Instituto de Estudos Europeus de Macau).
- Invited for three consecutive years (2024–2026) to design questions and discussion topics for the Macau International Knowledge Contest.

AWARDS & HONORS

Dean’s Honor List, Faculty of Social Sciences | **University of Macau**

2023–2026

Ten Thousand People’s Scheme Nomination for FISS | **Fudan University & University of Macau**

(Declined) 2024

Golden Lotus Full Scholarship for Admission Examination | **University of Macau**

2023

SKILLS

Languages: English (proficient), Mandarin Chinese (native), Cantonese (beginner)

Software: R, Tidyverse, Quarto, LaTeX
